Notes to Interim Financial Statements (unaudited)

1 Interim financial information

The financial information as at November 30, 2010 and for the three(3)-month periods ended November 30, 2010 and 2009, are unaudited; however, in the opinion of management, all adjustments necessary to fairly present the results of these periods have been included. The adjustments made were of a normal recurring nature. Interim results may not necessarily be indicative of results anticipated for the year.

These interim financial statements are prepared in accordance with generally accepted accounting principles in Canada and use the same accounting policies and methods used in the preparation of the Company's most recent annual financial statements. All disclosures required for annual financial statements have not been included in these financial statements. These interim financial statements should be read in conjunction with the Company's most recent annual financial statements for the year ended August 31, 2010.

2 Incorporation, nature of activities and going concern concept

The Company, incorporated under Part 1A of the Québec Companies Act, is in the business of acquiring and exploring mining properties. It has not yet determined whether its properties contain ore reserves that are economically recoverable. The recoverability of the amounts shown for mining properties is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the exploration and development of its properties, and future profitable production or proceeds from the disposal of properties.

These interim consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles and on the basis of a going concern assumption, meaning the Company will be able to realize its assets and discharge its liabilities in the normal course of operations.

For the period ended November 30, 2010, the Company reported a loss of \$26,710 and an accumulated deficit of approximately \$9.9 million at that date. As at November 30, 2010, the Company had a working capital of \$1,594,990, including cash and cash equivalents of \$2,002,299 secure sufficient funding for meeting its existing commitments for exploration and development programs, and general and administrative costs. Management is evaluating other alternatives to secure the necessary financing so that the Company can continue as a going concern.

The carrying amounts of assets, liabilities, revenues and expenses presented in the financial statements and the balance sheet classifications have not been adjusted as would be required if the going concern assumption was not appropriate.

3 Cash and cash equivalents

Exploration funds of \$45,008 as at November 30, 2010 (\$502,581 as at August 31, 2010) are restricted in use for exploration expenses pursuant to flow-through financing agreements.

As of November 30, 2010, cash and cash equivalents include \$453,815 (\$451,791 as of August 31, 2010) of guaranteed investment certificates bearing interest at 0.1% (0.1% of August 31, 2010), that are cashable any time without any penalties.

8 Debenture

On November 20, 2008, the Company issued a five(5)-year unsecured debenture of \$500,000, bearing interest at 12% annually. The opening balance of that debt has been decreased by \$92,000 as a discount on debenture so as to consider an effective interest rate of 20%. An accretion of debenture of \$4,600 (\$4,083 in 2009) is also reflected in the statement of loss. The principal is to be reimbursed in cash over a five(5)-year period for \$100,000 per year.

9 Convertible debentures

In november 2008, the Company completed a private placement of \$940,000 in unsecured convertible debentures. The debentures mature on November 20, 2011, and bear interest at the rate of 12% per annum, payable semi-annually either in cash or in shares. The principal is convertible at the option of the holder into common shares of the Company. During the first two (2) years, the principal is convertible into units at a price of \$0.54. Each unit consists of one common share and one share purchase warrant. Each share purchase warrant entitles the holder to purchase one common share at \$0.65. At the third year, the debentures are convertible into units at a price of \$0.60; each unit consists of one common share and one-half of a share purchase warrant. Each full warrant entitles the holder to purchase one common share at a price of \$0.75.

The convertible debentures are accounted for in accordance with its substance and is presented in the financial statements in its component parts, measured at their respective fair values at the time of issue. The liability component has been calculated as the present value of the required principal and interest payments discounted at a rate approximating the interest rate that would have been applicable to non-convertible debt at the time the debenture was issued.
