Azimut Exploration Inc.

Notes to Condensed Interim Financial Statements

(in Canadian dollars)

(Unaudited) For the three- and nine-month period ended May 31, 2016

1 Nature of operations, general information and liquidity

Azimut Exploration Inc. (the “Company”), incorporated in Canada under the *Quebec Corporations Act*, is in the business of acquiring and exploring mining properties. The Company’s registered office is located at 110 De La Barre Street, Suite 214, Longueuil, Quebec, Canada. The business of mining and exploring for minerals involves a high degree of risk, and there can be no assurance that planned exploration and development programs will result in profitable mining operations. The Company’s shares are listed on the TSX Venture Exchange under the symbol AZM.

Until it is determined that a property contains mineral reserves or resources that can be economically mined, it is classified as an exploration property. It has not yet been determined whether the Company’s properties contain ore reserves that are economically recoverable. The recoverability of the amounts shown for exploration and evaluation (“E&E”) assets is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the exploration and evaluation of its properties, and the profitable sale of the E&E assets.

Although management has taken steps to verify title to mining properties in which the Company has an interest, in accordance with industry standards for the current stage of exploration and evaluation of such properties, these procedures do not guarantee the Company’s title. Property title may be subject to unregistered prior agreements, and may not comply with regulatory requirements.

To date, the Company has not earned significant revenues, and is considered to be in the exploration and evaluation stage.

As at May 31, 2016, the Company had working capital of \$1,074,860 (\$1,259,926 – August 31, 2015) including cash and cash equivalents of \$1,071,977 (\$1,236,964 – August 31, 2015), and accumulated deficit of \$20.7 million (\$20.8 million – August 31, 2015). The Company earned an income of \$12,663 (loss of \$167,128 – 2015) for the nine-month period then ended.

Management of the Company believes it has sufficient funds to pay its ongoing general and administrative expenses, to pursue its budgeted exploration and evaluation expenditures, and to meet its liabilities, obligations and existing commitments for the ensuing twelve (12) months as they fall due. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least but not limited to twelve (12) months from the end of the reporting period. To continue its exploration and evaluation program on its properties and its operation beyond May 31 2017, the Company will periodically need to raise additional funds through the issuance of new equity instruments, the exercise of stock options, and the search of partners to sign option agreements on certain of its exploration properties. While it has been successful in doing so in the past, there can be no assurance it will be able to do so in the future, or that these sources of funding or initiatives will be available for the Company or that they will be available on terms that are acceptable to the Company.

Azimut Exploration Inc.

Notes to Condensed Interim Financial Statements

(in Canadian dollars)

(Unaudited) For the three- and nine-month period ended May 31, 2016

2 Summary of significant accounting policies

Basis of preparation

These unaudited condensed interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) applicable to the preparation of interim financial statements as issued by the International Accounting Standards Board (“IASB”), including International Accounting Standard (“IAS”) 34 – *Interim Financial Reporting*. The unaudited condensed interim financial statements should be read in conjunction with the annual financial statements for the year ended August 31, 2015, which have been prepared in accordance with IFRS. The accounting policies, methods of computation and presentation applied in these unaudited condensed interim financial statements are consistent with those of the previous fiscal year. The Board of Directors approved the interim financial statements on July 21, 2016.

Adoption of new accounting policies

IFRS 9 - Financial Instruments

The Company has elected to early adopt the requirements of IFRS 9 - *Financial Instruments* (“IFRS 9”) with a date of initial application of September 1, 2015. This standard replaces the guidance in IAS 39, “*Financial Instruments: Recognition and Measurement*” (“IAS 39”) relating to the classification and measurement of financial assets and liabilities. IFRS 9 eliminates the classification of financial instruments as “available-for-sale” and “held to maturity” and the requirement to bifurcate embedded derivatives with respect to hybrid contracts. This standard incorporates a new hedging model, which increases the scope of hedged items eligible for hedge accounting, and aligns hedge accounting more closely with risk management. This standard also amends the impairment model by introducing a new “expected credit loss” model for calculating impairment. This new standard also increases required disclosures about an entity’s risk management strategy, cash flows from hedging activities, and the impact of hedge accounting on the financial statements.

IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments and the contractual cash flow characteristics of the financial assets. Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward in IFRS 9.

The following summarizes the classification and measurement changes for the Company’s financial assets and financial liabilities as a result of the adoption of IFRS 9.

	IAS 39	IFRS 9
Financial assets		
Cash and cash equivalents	Loans and receivables	Amortized cost
Amounts receivable	Loans and receivables	Amortized cost
Investments	Available for sale	Fair value through profit or loss
Financial liabilities		
Accounts payable and accrued liabilities	Financial liabilities at amortized cost	Financial liabilities at amortized cost

Azimut Exploration Inc.

Notes to Condensed Interim Financial Statements

(in Canadian dollars)

(Unaudited) For the three- and nine-month period ended May 31, 2016

2 Summary of significant accounting policies (cont'd)

The accounting for these instruments and the line item in which they are included in the statement of financial position were unaffected by the adoption of IFRS 9, with the exception of the Company's investments that were reclassified from "available-for-sale" to "financial assets measured at fair value through profit or loss". Fair value gains and losses on investments are recognized in other gains and losses in the statement of loss and comprehensive loss.

In accordance with the transitional provisions of IFRS 9, the financial assets and liabilities held at September 1, 2015 were reclassified retrospectively without prior period restatement based on the new classification requirements and the characteristics of each financial instrument at September 1, 2015.

The Company has adjusted the following opening components of equity as at September 1, 2015 to reflect the retrospective impact of adopting IFRS 9, resulting in a change in accounting policy for investments:

	<u>September 1, 2015</u>		
	<u>As presented</u>	<u>Restatements</u>	<u>As restated</u>
	\$	\$	\$
Equity			
Deficit	(20,782,717)	36,756	(20,745,961)
Accumulated other comprehensive income	36,756	(36,756)	-
Impact on equity	<u>(20,745,961)</u>	<u>-</u>	<u>(20,745,961)</u>

The adoption of IFRS 9 did not result in any changes in the eligibility of existing hedge relationships, the accounting for the derivative financial instruments designated as effective hedging instruments, or the line item in which they are included in the statement of financial position.

There are no other relevant changes in accounting standards applicable to future periods other than those disclosed above and in the most recent annual financial statements for the year ended August 31, 2015.

3 Cash and cash equivalents

As at May 31, 2016, the Company's cash and cash equivalents of \$1,071,977 (\$1,236,964 as at August 31, 2015) included \$288,058 (\$173,340 as at August 31, 2015) of guaranteed investment certificates bearing interest at 0.1 % (0.1% – August 31, 2015), cashable any time without any penalties.

Azimut Exploration Inc.

Notes to Condensed Interim Financial Statements (in Canadian dollars)

(Unaudited) For the three- and nine-month period ended May 31, 2016

7 Exploration and evaluation assets (cont'd)

- a) In October 2015, an agreement was concluded with Osisko Exploration James Bay Inc., Newmont Northern Mining ULC and SOQUEM Inc. to transfer their Duquet Property to Azimut in consideration of an aggregate 2.25% net smelter return royalty (“NSR”) on the property.
- b) In March 2010, Everton Resources Inc. (“Everton”) earned a 50% interest in the Opinaca A Property by making cumulative cash payments of \$180,000, and incurring a total of \$2.8 million in work expenditures.

In September 2010, Azimut and Everton granted Hecla Quebec Inc. (“Hecla”), formerly Aurizon Mines Ltd (“Aurizon”), the option to earn a 50% interest in the Opinaca A and Opinaca B properties by making cumulative cash payments of \$580,000, and incurring a total of \$6 million in work expenditures over four (4) years, including 5,000 metres of diamond drilling by the second anniversary. On November 15, 2013, an amendment was made to extend the work schedule by two additional years. According to the agreement, Hecla may also earn an additional interest of 10%, for a total interest of 60%, by making cumulative cash payments of \$300,000 and incurring a total of \$3 million in work expenditures over three (3) years from the election date, and by delivering an independent pre-feasibility study on or before the fourth anniversary. The Company will receive cumulative cash payments totalling \$290,000 on the first option and \$150,000 on the second option; its resulting interest will be 20%. In addition, in the event that mineral resources of at least 2 million ounces of gold at an average grade of at least 6 grams of gold per tonne are discovered before the end of the eighth year of the initial option agreement, Hecla shall make a payment of \$1.5 million in Hecla common shares, subject to regulatory approval. The Company will receive 50% of these issued shares.

On November 14, 2014, a second amendment was made to exclude all claims comprising the Opinaca A Property from the agreement. All other terms remain unchanged.

- c) In March 2010, Everton earned a 50% interest in the Opinaca B Property by making cumulative cash payments of \$160,000 and carrying out a total of \$2 million in work expenditures. In September 2010, Azimut and Everton signed an agreement with Hecla regarding the Opinaca B Property as described in (b) above.

As at May 31, 2016, Hecla had made cumulative cash payments of \$580,000 (\$460,000 in 2015) and carried out a total of \$4.4 million in work expenditures. Of the total cash payment, Azimut had received \$290,000 (\$230,000 in 2015).

- d) In April 2006, the Company signed a letter of intent to form a three-way joint venture with Les Mines Opinaca Ltée (a wholly owned subsidiary of Goldcorp Inc.: “Goldcorp”) and Eastmain Resources Inc. (“Eastmain”) on the Eleonore South Property, which includes 166 claims of the Opinaca C Property and 116 claims owned by Goldcorp. In February 2008, Eastmain had earned a 33.33% interest in the Eleonore South Property by making cumulative cash payments of \$185,000, granting 30,000 common shares to the Company and funding a total of \$4.0 million in work expenditures.

As at May 31, 2016, the ownership of the property is as follows: Azimut 26.57%, Goldcorp 36.71% and Eastmain 36.72%. The Company is the operator of the \$2 million work program for the next 12-month period ending May 2017. Each of the joint venture participants has elected to contribute its proportionate share of ownership in the work program.

- e) In 2010, Goldcorp earned a 51% interest in the Wabamisk Property by making cumulative cash payments of \$500,000 and carrying out a total of \$4.0 million in work expenditures. In 2011, Goldcorp elected to proceed with the second option to earn an additional 19% interest in the property, which requires the delivery of a feasibility study within a period of ten (10) years.

Azimut Exploration Inc.

Notes to Condensed Interim Financial Statements (in Canadian dollars)

(Unaudited) For the three- and nine-month period ended May 31, 2016

8 Asset retirement obligations

	May 31, 2016	August 31, 2015
	\$	\$
Balance, beginning of the period	245,240	242,212
Unwinding of discount on asset retirement obligations	2,296	3,028
	<hr/>	<hr/>
Balance, end of the period	247,536	245,240

The estimated undiscounted cash flows required to settle the asset retirement obligations are \$251,480. A discount rate of 1.25 % (August 31, 2015 – 1.25%) was used to estimate the obligations. The calculation uses the assumption that the disbursements necessary to settle the obligations would be made in 2017. If the Company decides not to continue to explore on the Rex, Rex South or NCG properties, it is assumed that the asset retirement obligation will be settled in 2017. Should the Company decide to continue its activity on the Rex, Rex South or NCG properties, by itself or through a partner, the obligation will be settled further into the future. Each quarter, the Company reviews the expected timing of the required cash flow payments to settle the obligations, and adjusts the asset retirement obligations accordingly.

9 Warrants

There was no activity for the nine-month period ended May 31, 2016.

The 583,334 warrants issued under the private placements completed in June 2014, having an average exercise price of \$0.45 and valid until June 20, 2016, were recorded at a value of \$33,362, based on pro rata allocation of the estimated fair value as determined by the Black-Scholes option pricing model with the following assumptions: risk-free interest of 1.00%, expected life of 2 years, annualized volatility rate of 65% (based on the Company's historical volatility for 2 years up to the issuance date) and dividend rate of 0%.

On June 7, 2016, the Company obtained all regulatory approvals to extend the expiry date of 250,000 warrants until June 18, 2018 from the original expiry date of June 18, 2016, and to extend the expiry date of another 333,334 warrants until June 20, 2018 from the original expiry date of June 20, 2016. All other term and conditions remain the same.

10 Stock option plan

The Company maintains a stock option plan in which a maximum of 3,300,000 stock options may be granted. The number of shares reserved for issuance under the stock option plan is 15% of the shares issued and outstanding at the time the Company filed for an increase in the stock option plan. The exercise price of the options is set at the closing price of the Company's shares on the TSX-V, on the day before the grant date. The options have a maximum term of ten (10) years following the grant date, and they vest immediately, unless otherwise approved and disclosed by the Board of Directors.

The following tables present the stock option activities for the period ended May 31, 2016, and summarize the information about stock options outstanding and exercisable as at that date:

14 Subsequent event

The Company is in the process of raising funds through a non-brokered private placement of 7,812,500 units at a price of \$0.32 per unit for total gross proceeds of \$2,500,000. Each unit will comprise one (1) common share and one half-warrant. Each whole warrant will entitle its holder to subscribe for one common share of the Company at a price of \$0.45 per share over a 24-month period. The placement is subject to acceptance by the TSX Venture Exchange.
