

Québec, a Leader in the Green Energy Transition

- ★ James Bay Lithium deposit & major occurrence
- Azimut's lithium properties
- ✈ Airport
- ⚡ Power dam
- Power line
- Road
- ++++ Railway

James Bay Lithium Mineral Province

- ▲ Outstanding geologic context for LCT pegmatites
- ▲ Initial exploration stage
- ▲ Excellent infrastructure
- ▲ Low energy costs

Energy Transition Valley

- ▲ Stable North American geopolitical environment
- ▲ Strong governmental support to attract major players in the manufacturing industry
- ▲ St. Lawrence corridor

MINING James Bay Lithium Mineral Province

PROCESSING Energy Transition Valley

250 km
